-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 October 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

- a. Claims 1-14, to a membrane electrode assembly for a fuel cell having a barrier film.
- b. Claims 15-25, to a membrane electrode assembly for a fuel cell having an impregnated barrier plug.
- c. Claims 26-34, to a membrane electrode assembly for a fuel cell not having a barrier film or plug.

Upon election of species a, b or c, a further election of species is required.

The species are independent or distinct because each represents a different embodiment of the invention.

If species a is elected, further election of species is required. The species to be elected include:

- The location of the barrier film, as disclosed in claims 2-4. One of claims 2, 3 and 4 is required to be elected as a species.
- The material of the barrier film, as disclosed in claims 6-9. In claims 6 and 8, either a thermoset or thermoplastic should be elected. In claims 7 and

Art Unit: 1745

9, the specific material should be elected. Applicants are asked to indicate, for claims 6-9, which material is elected.

If species **b** is elected, further election of a ~~sub~~ species is required. The species to be elected is:

- The material of the barrier film, as disclosed in claims 17-20. In claims 17 and 19, either a thermoset or thermoplastic should be elected. In claims 18 and 20, the specific material should be elected. Applicants are asked to indicate, for claims 17-20, which material is elected.

If species **c** is elected, further election of a species is required. The species to be elected is:

- The electrocatalyst particles as claimed in claims 27 and 28. Applicants must elect either claim 27, wherein the sealing region is free of electrocatalyst particles, or claim 28, wherein the electrocatalyst particles in the sealing region have been poisoned.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 1745

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alix Elizabeth Echelmeyer whose telephone number is 571-272-1101. The examiner can normally be reached on Mon-Fri 7-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's trainer, Susy Tsang-Foster can be reached at 571-272-1293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
